

Vocal Marole - music from the border

Album 1

Album 2

Welcome to Day 24!

Vocal Marole is a story about people who may or may not be there, told through songs with accompanying descriptions. To start, you can click "Album 1" up in the corner there, or right here.

This is currently a *work in progress*. Nothing is finished yet, not even the "completed" albums. If you want to download an album, keep in mind that it won't stay up-to-date for long. The songs probably won't change (aside from slight volume tweaks), but I'm constantly rewriting the descriptions, and the titles may not stay the same either.
